

Covid-19 Update

Due to Covid -19 the ski season will look a lot different this upcoming season. I am listing several of the changes to expect. This is based on my discussions with Schweitzer management on Sept 1, 2020. Likely things will change by the beginning of the season and likely throughout the season. Being understanding and flexible will make this a lot easier. You may not agree with all these decisions but please keep in mind they are made with the best intentions of keeping the public and employees safe.

Please consider the effects of these changes, they may impact your decision to apply this year. If you have concerns you can call me to discuss and maybe we can find a solution.

Current changes to the program:

1. The funatics program will **not** have a supervised lunch this year. The children will be on their own for the lunch period.
2. There will be no regular group lessons this season. This affects us with the kids 15 to 17 years old, and special needs children who don't fit in a funatics group.
3. Masks will be required to be worn inside the lodge and other buildings.
4. The equipment/pass night at Schweitzer will be done with **assigned times** and require masks or face shields to be worn by all. No exceptions.
